Environmental Policy Statement

Our Policy

It is the policy of PRISMGLASS LTD, for our staff, Sub-Contractors and visitors to comply with the spirit and letter of current environmental legislation, regulations and approved codes of practice, and to proactively monitor changes in this to ensure integration and implementation into our management system.

We shall seek continual improvement of our environmental performance and for the product and services supplied to our clients in addition to supporting the environmental initiatives and strategies of our clients.

We are committed to protect the environment using the principles of reduce, reuse, recycle, pollution, prevention and control whilst striving towards sustainable development in our delivery of safe and reliable workmanship.

Delivery Strategy

PRISMGLASS LTD's responsibilities for environmental management are fulfilled by:

- Ensuring compliance with UK and European environmental legislation.
- Establishing objectives and targets to minimise the negative environmental impact of our activities and communicating these.
- Establishing a system of waste minimisation and recycling.
- Ensuring that consultation and communication takes place between our employees, clients, neighbours and other interested parties.
- Providing training, information, instruction and supervision to staff in order to ensure that they are aware of their roles and responsibilities for managing and reducing environmental aspects of our operations.
- Ensuring that audits are undertaken, seeking the involvement of employees and safety representatives.

Your Involvement

The PRISMGLASS LTD Managing Director and the management team are responsible for and totally committed to this policy but success can only be achieved with everyone's commitment and involvement. We can all contribute by raising environmental issues, helping to resolve them and by personal effort towards environmental protection in all our activities.
